SPECIAL NOTICE.

This Code invites criticism and suggestions. Do all we can ourselves, the additional wants and ideas which the experience of the Code users themselves suggest are ALSO needed, that a work designed for universal use may be brought nearest to perfection. Any criticisms or suggestions will be appreciated and utilized for future editions.

We will also be obliged if each Code holder will mail to us their name and address for registration in the holder's directory list, also enabling us to communicate should occasion require.

C. AMORY STEVENS.

IMPORTANT TO BUSINESS HOUSES.

The "ATLAS" Code contains many thousands of general business phrases in actual every day use. The Code ciphers used terminate with the letter "R," thus enabling houses, having representatives on the road or abroad, to frame their small special codes—giving description of goods, quantities, quality, pattern or sample numbers, sizes, makes, colors, shades, styles, lengths, breadths, widths, etc., etc., attaching Code words commencing with letter "S" to the end of the alphabet. There are some 20,000 good short words available. These words can be arranged and printed at a small cost in any form needed to the line of trade. Thus a complete, compact, handy-sized and economical Code is provided. The supplementary Code can be reprinted or changed as occasion requires, while the Code proper remains intact for years of service.
